AX-88 Laser Pinhole Drilling Machine

Certification:

CE Approved ISO9001:2000 Approved

Purpose:

The unit is used in model-making, it provides a simple way to fabricate precise parallel drill channels.

Description:

This AX-88 Laser Pinhole Drilling Unit features high RPM, low noise, and easy operations. The laser beam positioning system ensures high precision operations. The drilling depth can be adjusted within 0.15mm. The travel switch allows the motor to be turned on when the worktable is being pressed, which helps to increase its lifespan.
